Presentación del documento

Durante el año 2025, el Instituto de Investigación Sanitaria de Castilla-La Mancha (IDISCAM) está llevando a cabo la implantación progresiva de varios módulos del software de gestión FUNDANET, entre los que se incluye el módulo de Producción Científica.

En el mes de septiembre se realizó la formación específica del personal de la Fundación y del SESCAM encargado de mantener actualizada esta herramienta, que permitirá centralizar y sistematizar toda la información relativa a la actividad científica de IDISCAM.

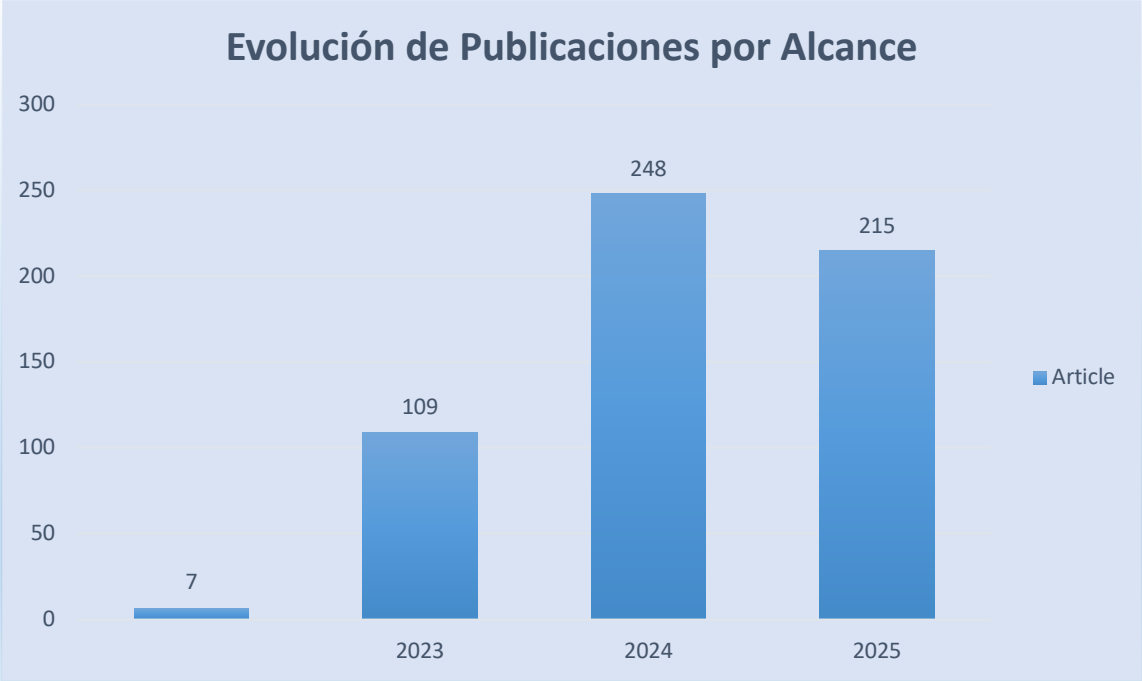

Los datos presentados en este informe de producción científica corresponden a la información incorporada en FUNDANET hasta el mes de octubre de 2025. Por tanto, este documento debe considerarse como una versión provisional, ya que el repositorio se encuentra en fase inicial de implantación y expansión. En los próximos meses, la base de datos continuará alimentándose con nuevas incorporaciones que completarán y actualizarán la información sobre la producción científica del Instituto.Evolución anual del número de publicaciones realizadas
